

*Please provide data from **2008 - 2022**. This request may require data from a combination of Agencies & Organisations, depending on Council funding allocations. You can provide the data in its submitted format, but please state which - monthly, quarterly, annually, or financial year. Quarterly is preferred though.*

Public Health services transferred from previously known PCT's to Local Authorities on the 1<sup>st</sup> April 2013. Therefore, all data provided with be provided back to this date unless otherwise stated. For data pre-1st April 2013 this would need to be requested from relevant NHS bodies.

## **Funding**

### **1. Funding spent annually (please state: yearly or financial year) on services that work only with substance misuse or substance use disorders.**

All figures quoted are for a full financial year.

2013/14: Data not held

2014/15: Data not held

2015/16: £603,689

2016/17: £631,000

2017/18: £597,720

2018/19: £558,090

2019/20: £533,497

2020/21: £611,100

2021/22: £657,911 – plus £303,000 as part of the additional Universal grant funding of £80million by central government.

### **2. Funding spent annually (please state: yearly or financial year) on services that offer generic support that may include substance misuse or substance use disorder support.**

2015/16 to date £7,500 paid annually to Drugfam who are a charity commissioned to provide a lifeline of safe and caring support to families, friends and partners affected by someone else's drug or alcohol use.

### **3. Name of services & projects funded, that work directly with substance misuse or substance use disorders; including**

- funding amount, funding period & service provided
- was funding given to a Statutory, Voluntary or Private Sector Organisation.

2013/14: Data unavailable

2014/15: Data unavailable

2015/16	£562,722	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV (blood borne viruses), harm reduction, needle exchange etc
2016/17	£562,722	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc
2017/18	£488,172	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc

2018/19	£489,497	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc
2019/20	£491,157	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc
2020/21	£491,157	SMART CJS	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc
2021/22	£960,911	Cranstoun	Fully Integrated Substance Misuse service for adults and young people, including structured and non-structured support for tier 2 & 3 clients, brief interventions, BBV, harm reduction, needle exchange etc

**4. Name of service & projects funded, that work with a range of support needs that may include substance misuse or substance use disorders; including**

- funding amount, funding period & service provided
- was funding given to a Statutory, Voluntary or Private Sector Organisation.

2015/16 to date £7,500 paid annually to Drugfam who are a charity commissioned to provide a lifeline of safe and caring support to families, friends and partners affected by someone else's drug or alcohol use.

**Funded services and Projects**

**5. All data from the services & projects mentioned in above 3 & 4. Data can be provided in its original submission format. However monthly or quarterly is preferred, along with their data on:**

This data is not available, the service is provided by Drugfam and the data is held on a local system. Most of the data requested would involve an individual file audit. With an average monthly return of 130 people engaging with the service from across the South-East this would equate to 130 people x 4 quarters = 520 people per annum entering support. 520 files allocated 5 minutes each to obtain the required information totalling 43hrs per years data requested. The data would also need to then be split into Wokingham residents as this is not a Wokingham resident specific service.

**a) Equal opportunities & Referral data**

- Including: race & ethnicity group, age group, gender group, religion & belief, disability & mental health, sexual orientation, marital status, children.

2008/09: Data not held  
2009/10: Data not held  
2010/11: Data not held  
2011/12: Data not held

## 2021/22

Data has not yet been publicised by the National Drug Treatment Monitoring System.

## 2022/23

As 2021/22

### • And all additional data collected from equal opportunities or referral forms

There is a huge amount of data collected in this area, if you wish for this to be provided outside of the data already requested and provided, please be specific around what data you would like in addition.

### b) Triage data

- Including: number of referrals received, gender of referrals, referral source, reason for referral,
- Care & support needs, income & state benefits, education, housing, risk factors
- And all additional data collected from the triage form

This information is not routinely collected, and the provider would need to review 661 individual records. To pull off the info would take around 10 mins per record. That's 110 hours.

**c) Engagement**

- **Number of referrals & their gender, how many referrals attended their 1st, 2nd, 3rd appointments & their gender, how many did not attend (DNA) & their gender**
- **And all additional data collected in regards to engagement**

This information is not routinely collected, and the provider would need to review 661 individual records. To pull off the info would take around 10 mins per record. That's 110 hours.

**d) Treatment episodes**

- **Number of service users referred to the service more than once & their gender.**
- **And all additional data collected regarding number of treatment episodes**

This information is not routinely collected, and the provider would need to review 661 individual records. To pull off the info would take around 10 mins per record. That's 110 hours.
