Date Completed: 14/06/2022 10:00:00

Location: ?

Description: Section of roundabout between Barkham Ride & Finchampstead Road is in an appalling state of disrepair and has been neglected for months. This now poses an immediate danger to pedestrians, cyclists and motorists. Please repair ASAP.

Recommended Action:

Enquiry Number: W2237155

Assigned CSO:

Date Raised: 26/05/2022 09:26:00

Date Completed: 26/05/2022 12:59:00

Location: Hole in left side of the road as you approach California Crossroads

Description: ?

Recommended Action:

Enquiry Number: W2237195

Assigned CSO: Highway Assets

Date Raised: 26/05/2022 20:46:00

Date Completed: 14/06/2022 09:58:00

Location: The damage is on a 1/4 of the roundabout from the California crossroads exit and on past the Barkham Ride exit

It is extensive damage that is getting worse as the weeks go by

Description: Road surface is dangerous to cyclists and motorcyclists
I have witnessed near accidents as people wobbled around the roundabout

Recommended Action:

Enquiry Number: W2237282

Assigned CSO: Highway Assets

Date Raised: 29/05/2022 21:05:00

Date Completed: 14/06/2022 10:26:00

Location: Roundabout where Finchampstead Road meets Barkham Ride

Description: Big pothole in the middle of the roundabout

Recommended Action:

Enquiry Number: W2237331

Assigned CSO: Highway Assets

Date Raised: 31/05/2022 10:59:00

Date Completed: 14/06/2022 10:16:00

Location: ?

Description: pothole previously reported and poorly repaired and reopened, the pothole is on the edge of the road but often in the driving lane. The surface is beyond repair and needs a thorough resurfacing job

Recommended Action:

Enquiry Number: W2237356

Assigned CSO: Streetworks

Date Raised: 31/05/2022 17:31:00

Date Completed: 01/06/2022 11:22:00

Location: Opposite Creswells Garage near California Crossroads and before getting to the Finchampstead Surgery.

Description: There are traffic lights opposite Creswells Garage. They have been there since at least Saturday and every time I cycle past there nothing is happening. The most recent time I went past is at 14.10 this afternoon (31/5/22). There is no indication showing which statutory undertaker is involved.

This unnecessary obstruction is close to a busy crossroads and I believe the undertaker should pay for the time when they are not carrying out any work. A bank holiday is imminent.

Recommended Action:

Enquiry Number: W2237391

Assigned CSO:

Date Raised: 01/06/2022 12:52:00

Date Completed: 17/02/2023 11:05:00

Location: East side of Finchampstead Road approaching California Crossroads from the north.

Description: Hedge overgrowing footway. Footway could do with a sweep. Well used path including as a route to Nine Mile Ride Primary School, busy section of road.

Recommended Action:

Enquiry Number: W2237452

Assigned CSO: Tree Management

Date Raised: 05/06/2022 16:52:00

Date Completed: 02/08/2022 09:42:00

Location: Opposite 353 Finchampstead Road, Finchampstead.

Description: Builders rubble thrown under this tree some time ago whilst new houses being constructed across the road. The tree, a large oak, is now oozing unpleasant looking "gunge" near its base.

Recommended Action:

Enquiry Number: W2237877

Assigned CSO:

Date Raised: 15/06/2022 11:01:00

Date Completed: 17/02/2023 11:40:00

Location: coming from the care home on the left hand side, cross over to the other side of the road.

Description: the grass and vegetation has overgrown making it difficult to use the path .
difficulty for wheelchair user to use path

Recommended Action:

Enquiry Number: W2243629

Assigned CSO: Flooding

Date Raised: 20/11/2022 06:47:00

Date Completed: 01/01/9999 00:00:00

Location: Finchampstead road to Jubilee gardens

Description: The flood was already here despite no rain for several days, now it is torrential rain it is VERY dangerous and unless sorted the road is likely to become very damaged, being on a bend means that there is unseen traffic in middle of road, it is very dark too. This problem has got steadily worse over the last few years and nothing seems to be done to remedy it, presumably much like Wellingtonia Ave. If this road collapses it will cause enormous issues.

Recommended Action:

Enquiry Number: W2243720

Assigned CSO: Highway Assets

Date Raised: 21/11/2022 16:54:00

Date Completed: 19/12/2022 11:36:00

Assigned CSO:

Date Raised: 13/03/2023 16:03:00

Date Completed: 15/03/2023 12:23:00

Location: Roundabout approach from tescos and look gorgeous the lay line between the left lane right side and right lane left side as its a rather obvious mix of urgent, serious and major pavement defects.

Description: Well I know this is a bit of a popular one right now so when did an engineer last go out ? Looking at it this morning if you approach from tescos, it appears the carrageway joint between lane one and two might have gone. There is an obvious dark line about 1/3rd of the way round the roundabout, this mornings rain was sitting in it and you can follow it through all the recent potholes, carriageway break up and past areas of binder course and sub base. Probably far too late to put some crack sealant in.

Recommended Action:

Enquiry Number: W2348608

Assigned CSO:

Date Raised: 13/03/2023 21:25:00

Date Completed: 15/03/2023 12:31:00

Location: Pavement just past Finchampstead Rd Doctors Surgery, Finchampstead Rd, heading towards Jubilee Road.

Description: Incident number W2349724

Despite your communication advising the footpath had now been cleared of mud/leaves etc, having walked it this morning I can confirm IT IS NOT clear. I can see there has been a half cocked attempt to clear the path but it clearly evident this has not been done properly and the person responsible would know full well they have not done the job properly.

Recommended Action:

Enquiry Number: W2350127

Assigned CSO:

Date Raised: 06/04/2023 16:32:00

Date Completed: 14/04/2023 13:40:00

Location: Roundabout Barkham ride/ Finchampstead road

Description: The road here is one of the worst in our county.

There are numerous holes deep enough for large aggregate to spill over the road making it particularly dangerous for cyclists and deep enough to do damage to alloy wheels.

The are 300 mm diameter and 100mm deep.

These pot holes are continually behind temporary filled then weeks later the holes appear.

Please Wokingham borough can you fix these holes permanently please .
